

## Special Training Opportunity

# Severe Wx Net Control (GRLevel3 Radar)

**PURPOSE:** To qualify additional ARES R1D5 members to lead Wx Spotting Nets when activated by Skyview Weather.

**DURATION:** 3-4 hour lab

**COST:** Zero (other than GR3 software)

### PRE-REQUISITES:

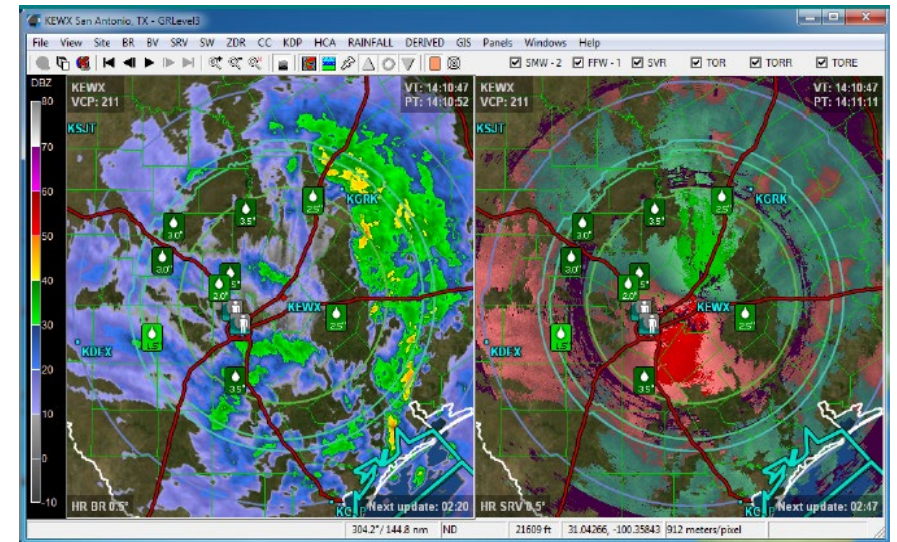

1. Have a laptop computer with operational GRLevel3 software (purchase price ~\$80).
2. Have demonstrated Net Control ability.
3. Be a certified NWS Weather Spotter with a working knowledge of weather science.

**CLASS DATE/TIME:** Saturday August 19, 0800-1200 (subject to change)

**CLASS SIZE:** Limited to ~5

**CLASS LOCATION:** TBD

**REGISTRATION:** Talk to Jim Rooney/N4JJR before purchasing software, class size is limited.

GRLevel3 Version 2 is a Windows viewer for NEXRAD Level III data. It displays high-res base products, dual polarization products, and derived products along with Local Storm Reports and severe weather warnings. (source Gibson Ridge Software, LLC)
